For IBN SINA Hospital

Date: 13 September 2026

SOW #001

Introduction

Innovative Bd. will develop an Hospital Appointment & Patient Management System for **IBN SINA Hospital**. This platform transforms the campus clinic into a digital first medical facility.

The system will connect patients, doctors, and administrative staff to ensure fast, high quality clinical services.

Purpose and objectives

The purpose of this project is to develop a Hospital Appointment & Patient Management System.

The project objectives are:

- Allow patients to easily search for doctors, check availability, and book appointments online
- Replace the existing manual, paper-based medical records
- Reduce administrative workloads for the hospital staff and minimize patient waiting times in lines

Tasks

Innovative Bd. will complete the following tasks as part of this project:

- Requirement analysis, system architecture design, and UI/UX wireframing.
- System development for Patient Portal, Doctor Workspace and Admin Control Panel.
- Testing and bug fixing

The following tasks are not included in this project's scope and will not be performed by **Innovative Bd.**

- Hardware installation
- Staff training
- On-site maintenance

Deliverables

Innovative Bd. will provide the following deliverables as part of this project:

- Requirements Specification & Architecture Document.
- Functional Hospital Appointment & Patient Management System.
- User Manual & Digital System Documentation.
